

End-to-end security for a  
**Smarter, Safer world**

The background of the slide is a composite image of a modern office. The top half shows a blurred view of a lounge area with white and purple armchairs and a large potted plant, with a white dome security camera in the foreground. The bottom half shows a clear view of a workspace with orange and grey desks, white chairs, and large windows in the background.

# Introduction

Company Profile

# About Our Company

## Our company quality

If there's one thing Conslint is focused for, it's quality. Quality is overriding across our entire price chain – from analysis and development to production, throughout to usage once use. And, it's even as necessary inside the relationships we've got with our partners and customers.

- We make a customer, not a sale.
- Our quality is not an act , it is a habit.
- Our quality is remembered long after the price is forgotten.
- Our quality isn't expensive it's priceless.
- We organized seek quality over quantity.
- Our quality means doing it right when no one is looking.

## CORE VALUE

- We always do what we say we're going to do.
- We always consider the consequences of our actions and in-actions.
- Our clients place us in a position of trust, so we treat them and their valued information with the highest integrity at all times.
- Everyone is part of the same team.
- We want our customers to say "WOW"!
- We always try to anticipate the complaint.
- Nobody in our organization is too senior to ignore our core values, or too junior to insist upon them.

## Our mission

To assist in the development of the home/office comfort and security industry by providing and introducing suitable systems and technologies to make Africa a better and secure place to live.

## Our Vision
